

ROLLING COLD STORAGE DOOR

BUILT FOR LOW TEMPERATURE. DESIGNED FOR PERFORMANCE

1. PRODUCT OVERVIEW

Cold Storage Doors are specially engineered to maintain low temperature conditions, ensure energy efficiency, and provide reliable operation in refrigerated and frozen environments. These doors offer excellent insulation, airtight sealing and durability for demanding applications in cold rooms, freezers and temperature-controlled facilities.

2. Door Types

- **Hinged Doors** : Single or double leaf insulated doors with excellent thermal insulation and airtight sealing. Suitable for personnel access and smaller cold room openings.
- **Sliding Doors** : Space-saving insulated sliding doors designed for larger cold room openings and frequent access.
- **Vertical Lift Doors** : Vertical lift doors designed to provide easy operation while minimizing floor space requirements.
- **Roller Doors** : High-speed roller doors designed for quick access and reduced temperature loss in high-traffic areas.
- **Rapid Freezer Doors** : High-speed doors specially designed for freezer applications, providing fast opening and effective temperature sealing.
- **Blast Freezer Doors** : Heavy-duty insulated doors designed for extremely low-temperature blast freezer environments.
- **Cold Room Doors** : Insulated doors designed to maintain controlled temperatures in chilled and refrigerated storage rooms.
- **Freezer Room Doors** : Specially insulated doors designed for frozen storage areas and low-temperature applications.
- **Hermetic Doors** : Airtight doors designed for applications requiring high hygiene, controlled temperature and minimum air leakage.
- **Hygienic Doors** : Easy-to-clean doors with smooth surfaces, suitable for food processing, pharmaceutical and other hygiene-sensitive environments.

DOOR TYPES

1. HINGED DOORS

2. SLIDING DOORS

3. VERTICAL LIFT DOORS

4. ROLLER DOORS

5. RAPID FREEZER DOORS

6. BLAST FREEZER DOORS

7. COLD ROOM DOORS

8. FREEZER ROOM DOORS

9. HERMETIC DOORS

10. HYGIENIC DOORS

3.Key Features

- Excellent thermal insulation to minimize energy loss
- Airtight sealing to maintain temperature and humidity
- Durable construction for long-lasting performance
- Easy and safe operation
- Suitable for chilled and frozen applications
- Safety release inside for emergency exit
- Low maintenance and high reliability
- Custom sizes and configurations available
- Withstands extreme temperature conditions
- Compatible with access control and automation systems

4. Applications

- Cold Storage C Warehouses
- Food C Beverage Industry
- Dairy C Milk Processing
- Meat, Poultry C Seafood
- Pharmaceutical Industry
- Fruit C Vegetable Storage
- Ice Cream C Frozen Food Industry
- Logistics C Distribution Centres

Influitive Automation LLP

Get in Touch

Reliable Industrial Door & Automation Solutions

Looking for a reliable solution for **Fire Rated Doors, Industrial Doors, Rolling Shutters, Sliding Doors, Sectional Doors, RFID, BOOM Barriers , CCTV Systems , Bio-Matrices Devices , Fire Alarm Systems or Automated Access Systems?**

Our team provides **customized solutions, technical consultation, installation, and project support** based on your site requirements and application.

Why Choose Us?

- Customized solutions for industrial & commercial applications
- Professional technical support
- Quality-focused products and solutions
- Installation & project assistance
- Solutions designed according to site requirements
